

## AI Visual Recognition Barcode Label Printing Cash Register Scale LP-S

### Feature:

#### Recognize patterns

Open packaging

Transparent packaging

Nude Items

The item recognition rate is above 98%

Recognition speed within 0.5s

Complete types of items identification

Take photos of unidentified objects

**Upper computer 4.0 software**

Has universality through

Learn supplementary recognition pictures

**Upper computer 4.1 software**

All features can be downloaded with one click

**Identify the operation Interface**

Item PLU setting

Item format setting

Item network setting

Object image setting

**Check out Cashier Interface**

Settlement of cumulative good transactions

Remote small program item trading

Automatic recognition of voice broadcast

Automatic weighing

Automatic manual label switching

Automatically upload data

Purchase, sale and stock management

The payment function is completed in one machine

Members find customers automatically

**Technical parameters**

Model	LP-S		
Capacity	3kg	6kg	15kg
Index value(1/3000)	1g	2g	5g
Index value(1/7500)	0.5g	1g	2g
Division value (1/15000)	0.2g	0.5g	1g
Min weighing capacity	20g	40g	100g
Appearance of size(L*W*H)	381mm*428mm*500mm		
Display method	10.1 inch, 7 inch capacitive touch LCD screen green display		
Commonly used label paper	30mm*40mm, 37mm*50mm,40mm*50mm,40mm*60mm		
Label paper code diameter	25mm diameter		
Maximum print width	56mm( max)		
Print speed	75mm/s		
Interfaces	RS232, RJ45 , Ethernet interface, Wifi (optional) RJ11 Line box ( optional)
