

## Load Cells Testing Indicator Device SM204-A

### SM204-A Testing Instrument For Strain Gauge Sensor

#### Features:

- \*High precision, in excess of 300,000 accuracy, Unit accuracy equal 0.05uV, when the ISN state, increased 5 times.
- \*Fast and stable display.
- \*Denoting Zero when testing.
- \*No need external power,the power out put by instrument .
- \*Used for manufactory of strain gauge sensor, low-cost,high efficiency.
