

OIML Weighing Indicator XK315A1-10

Application:

Electronic platform scale and weighing scale, etc.

Feature

10V/m immunity to radiated electromagnetic fields

6 digital 25.4mm LCD

Drive up to 4x350Ω or 8x750Ω load cells

5V load cells excitation voltage

Connection to 4-wire load cells

1,000,000 internal ADC counts

Quick recalibration due to change of environment

Manual and automatic weight accumulation

Automatic zero tracking

RS-232C/RS-485 Interface with continuous data output or command protocol

RS-232C serial printer interface

High resolution(×10) display

HI/OK/LO set point

Low battery warning

Plastic housing and stainless steel holder
